TABLE OF CONTENTS

NUMBER 1, FEBRUARY 1968

	Page
First Questions Stanley Lippert	1
A Method of Evaluating Large Numbers of System Alternatives Robert Sadacca and Robert T. Root	5
The Effect of Signal Rate on Performance in two Kinds of Vigilance Task Jane F. Mackworth	11
Feasibility of Studying Driver Reaction to Sudden Pedestrian Emergencies in an Automobile Simulator Gerald V. Barrett, Minoru Kobayashi, and Bernard H. Fox	19
The Estimation of Vehicular Velocity as a Function of Visual Stimulation Santo Salvatore	27
Improving Time-Sharing Performance of Pilots Through Training Richard F. Gabriel and Alan A. Burrows	33
Human Factors Evaluation of Head-Up Display and Flight Performance by Photography and Data-Reduction Methods Isaac DeBotton	41
Energy Considerations as Determinants of System Design Irving Streimer	53
Increased Crew Activities Scheduling Effectiveness Through the Use of Computer Techniques Wilton W. Murphy, Keith A. Krusemark, and Ronald W. Moyer	57
A Red-Green Paradox? H. Jerry Lavender, Jr. and Raymond M. Ekstrom	63
Human Frequency Response as a Function of Visual Feedback Delay John M. Leslie and David A. Thompson	67
A System of Notation and Measurement For Space Suit Mobility Evaluation John A. Roebuck, Jr.	79
The Authors	95

NUMBER 2, APRIL 1968

	Page
Manpower System Models in Personnel Allocation Research Richard C. Sorenson	99
The Use of Teams in Image Interpretation: Information Exchange, Confidence and Resolving Disagreements George W. Doten, John T. Cockrell, and Robert Sadacca	107
Terrain-Following With A Head-Up Display Stanley M. Soliday and James R. Milligan	117
Human Factors and the Design of Time Sharing Computer Systems Raymond S. Nickerson, Jerome I. Elkind, and Jaime R. Carbonell	127
On the Psychological Importance of Time in A Time Sharing System Jaime R. Carbonell, Jerome I. Elkind, and Raymond S. Nickerson	135
Work Schedules and Performance During Confinement W. Dean Chiles, Earl A. Alluisi, and Oscar S. Adams	143
The Authors	197

NUMBER 3, JUNE 1968

	Page
Target Recognition on TV as a Function of Horizontal Resolution and Shades of Gray Dorothy M. Johnston	201
Human Simulation Applied to the Functional Design of Information Systems Harold P. Van Cott and Robert G. Kinkade	211
Assembly and Inspection of Microelectronics Systems Kenneth S. Teel, Robert M. Springer, and Ernest E. Sadler	217
User Input Mode and Computer-Aided Instruction Charles S. Morrill, Nancy C. Goodwin, and Sidney L. Smith	225
The Effect of Background Music on the Control Activity of an Automobile Driver Stephan Konz and David McDougal	233
Specification of Road Traffic Signal Light Intensity Barry L. Cole and Brian Brown	245
A Study of the Relation Between Forward Velocity and Lateral Acceleration in Curves During Normal Driving Malcolm Ritchie, William K. McCoy and William Welde	255
Driving at Requested Speed: Comparison of Projected and Virtual Image Displays Gerald V. Barrett, Minoru Kobayashi, and Bernard H. Fox	259
Just Noticeable Differences in Some Vehicle Handling Variables Errol R. Hoffman and Peter N. Joubert	263
Single and Dual Axis Tracking as a Function of System Dynamics Peter N. Ziegler	273
Pilot Response in Combined Control Tasks Hugh P. Bergeron	277
Studies of Component-Total Task Relations: Order of Component-Total Task Practice and Total Task Predictability Roy Omer Freedle, Albert Zavala, and Edwin A. Fleishman	283
The Authors	297

NUMBER 4, AUGUST 1968

	Page
THE EFFECT OF THE OPERATOR'S HANDEDNESS ON SOME DIRECTIONAL STEREOTYPES IN CONTROL-DISPLAY RELATIONSHIPS Alphonse Chapanis and Bernard A. Gropper	303
AIRBORNE DISPLAYS FOR FLIGHT AND NAVIGATION Stanley N. Roscoe	321
COMPONENT-TOTAL TASK RELATIONSHIPS: SIMPLE AND SEQUENTIAL PRACTICE EFFECTS Albert Zavala and Arlene M. Geist	333
PREDICTION OF MUSCULAR ENDURANCE (WORK PERFORMANCE) FROM INDIVIDUAL DIFFERENCES IN INITIAL AND POST TRAINING INCREMENTS IN STATIC STRENGTH Leon E. Smith and Donald K. Edwards	345
ASSESSMENT OF THE FIDELITY OF DYNAMIC FLIGHT SIMULATORS Samuel Mudd	351
VISUAL FACTORS IN THE DESIGN OF COMPUTER-CONTROLLED CRT DISPLAYS John D. Gould	359
THE EFFECT OF BREATHING 100% OXYGEN ON FOVEAL THRESHOLDS Mary M. Connors	377
INDUCED STEREOSCOPIC MOTION AS AN AID IN THE SEARCH FOR TALL TARGETS Roger J. Weldon, Douglas A. Slingerland, and John T. Myers	385
LUNAR GRAVITY SIMULATION AND THE EFFECT ON HUMAN PERFORMANCE Richard J. Shavelson	393
VISUAL DETECTION PROBABILITY OF "SONAR" TARGETS AS A FUNCTION OF RETINAL POSITION AND BRIGHTNESS CONTRAST Leroy L. Vallerie and James M. Link	403
JOYSTICK DYNAMICS Barbour L. Perry and Henry P. Birmingham	413
THE DESIGN FOR AN OPTICAL RATE DISPLAY Patricia Anne Griffin	419
THE PRIME TECHNICAL INFORMATION SOURCE—THE LOCAL WORK ENVIRONMENT John D. Hodges and Bruce W. Angalet	425
HUMAN FACTOR EVALUATION OF A COMPUTER BASED INFORMATION STORAGE AND RETRIEVAL SYSTEM Gerald V. Barrett, Carl L. Thornton, and Patrick A. Cabe	431
ERRATA	437
THE AUTHORS	439

NUMBER 5, OCTOBER 1968

	Page
Special Editor: Michael L. Hershberger	
DIVER PERFORMANCE AND THE EFFECTS OF COLD Hugh M. Bowen	445
CHARACTER LEGIBILITY AND DIGITAL FACSIMILE RESOLUTION Robert L. Erdmann and Alan S. Neal	465
A PREDICTIVE SCALE OF AIRCRAFT EMERGENCIES Lynn V. Rigby and David A. Edelman	475
LEISURE AND RECREATION IN LONG DURATION SPACE MISSIONS T. M. Fraser	483
EFFECTIVENESS OF FILTERS IMPROVING AIR-TO-GROUND TARGET IDENTIFICATION PERFORMANCE ON A TELEVISION DISPLAY Dorothy M. Johnston	489
FIELD DEPENDENCE AND TARGET IDENTIFICATION Carl L. Thornton, Gerald V. Barrett and James A. Davis	493
AN EXPERIMENTAL COMPARISON OF TWO MAP DISPLAY MODES Richard S. Layman	497
ATTENUATION OF THE VIGILANCE DECREMENT THROUGH STIMULATION IN A SECOND MODALITY Josephine M. Randel	505
THE EFFECTS OF STEREOSCOPY ON THE RECOGNITION OF PATTERNS IN VISUAL NOISE Henry Giarretto	513
DETECTION TIME TO A POINT SOURCE OF LIGHT APPEARING ON A STAR FIELD BACKGROUND WITH AND WITHOUT A GLARE SOURCE PRESENT Richard F. Haines	523
SOME FACTORS INFLUENCING VISION THROUGH MESHES Adrian R. Hill and Thomas A. Markus	531
THE AUTHORS	553

NUMBER 6, DECEMBER 1968

	Page
Special Issue: DEVELOPING COUNTRIES Special Editor: Stanley Lippert	
PREFACE Stanley Lippert	557
SOME HUMAN FACTORS PROBLEMS AND POSSIBILITIES IN DEVELOPING ETHIOPIA Simon D. Messing	559
EDUCATIONAL INTERACTION BETWEEN AFRICA AND THE WEST David Gordon Wilson	565
ECOLOGY AND DEVELOPMENT C. Bruce Lee	569
THE PROBLEM OF U.S. CIVILIAN HUMAN FACTORS DATA John F. Christian	571
TECHNOLOGICAL DEVELOPMENT IN THE DEVELOPING COUNTRIES Ralph H. Hofmeister	573
RESISTANCE AND ADAPTATION TO TECHNOLOGICAL CHANGE: SOME ANTHROPOLOGICAL VIEWS Ralph L. Beals	579
TECHNOLOGY TRANSFER THROUGH VITA, VOLUNTEERS FOR INTERNATIONAL TECHNICAL ASSISTANCE Adrienne Cameron Grenfell	589

	Page
Mobilizing Rural Resources for Industrial Development Jacob P. Frankel	593
Science, Technology and Political Development Arpad von Lazar and Phillip D. Mikesell	599
A Human Factors Viewpoint on Pakistan Salim Akhtar	607
The Role of Human Factors in Rural India Chitaranjan Saran	613
A View of the Contribution of the Ergonomist in Under-Developed Countries E. N. Corlett	625
The Work of Industrial Psychologists in the Central Labour Institute, India H. G. Maule	629
The Organization and Conduct of a World Health Organization Inter-Regional Course on Ergonomics for Developing Countries William T. Singleton and David Whitfield	633
The Human Engineer as an Agent of Change in Industrializing Nations Harold P. Van Cott and Paul Spector	641
A Comprehensive Approach to Human Factors in Developing Countries Stanley Lippert	649
The Authors	663
Index to Volume 10	669

SUBJECT INDEX

	Page
Abilities, human in teaching	283, 333
Acceleration and speed, driving	255
Acceptance, user	
computer based information storage and retrieval system	431
information systems	211
local information sources	425
of test batteries	192
in time sharing computer systems	127, 135
Activity, crew scheduling	57
Adaptation to technological change	579
AESOP (An Evolutionary System for On-line Processing)	225
Africa, cultural interaction with the West	562
Aircraft emergencies, predictive scale for	475
Alphanumerics	
character legibility and digital facsimile resolution	465
in CRT displays	359
Anthropology, and technological change	579
Apparatus	
complex coordination test	283, 333
control-display relationships	303
embedded figures test (EFT) and target identification	493
Greenshield's Driveometer	233
maps for image interpretation	497
Mercury Procedures Trainer	277
planetarium	523
space suit mobility measurement	79
strength and endurance test	345
vigilance	11
visual thresholds	377
see also: simulation	
Attitude toward labor, in developing countries	561
Auditory stimulation, and vigilance decrement	505
Automobile driver performance	
and background music	233
driver reaction to simulated pedestrian emergencies	19
driving at requested speed	259
estimation of vehicular velocity	27
handling qualities	263
road traffic signal light intensity	245
speed and lateral acceleration	255
steering ratios and forces	263
Control-display relationships	303
Central Information Reference and Control (CIRC) System	431
Central Labour Institute, India	629
Character legibility	465
Circadian periodicities	143
Cold, and diver performance	445
Color	
coding	63
computer-controlled CRT displays	359
Rainbow Optical Landing System (ROLS)	419
Computers	
computer-aided instruction	225
computer-based tactical image interpretation system	5
computer-controlled CRT displays	359
crew scheduling	57
information storage and retrieval system	431
manpower allocation methods	99
time sharing systems	127
Confinement, performance during	143
Contrast	
CRT displays	359
